

SUSTAINABILITY FORUM SERIES

A Two-Part Series on Energy Management, High Performance Design & Green Building Strategies

The Construction Institute, University of Hartford,

Connecticut Business & Industry Association and the Connecticut Green Building Council present:

“Greening Your Bottom Line”

Part II – Making the Sustainable Building Process Work for You

- Understanding what sustainability means to the owner, the design team, the contractor and the end user
- Key factors that define how the sustainable design & construction process differs from the traditional process
- An overview of current and pending legislation and how it will impact sustainable design and construction
- Best Practices & Case Studies highlighting the top dos & don'ts of the sustainable design process

This program is intended for architects, engineers, contractors and owners interested in understanding the sustainable design process.

Friday, April 20, 2007

Registration 7:45 a.m. • Program 9:00 a.m. • Exhibit Hall 7:45 a.m. – 1:00 p.m.

“The Hangar” at Pratt & Whitney, East Hartford, CT

Offered in cooperation with: ABC; ACEC; AGC; AIA; ASHRAE; ASPE; BOMA; CBC; CBIA; CCIA; CMAA; CSA; IFMA; NAWIC; PWC; SMPS

Program Season Sponsors

Construction Institute Members are encouraged to invite Non-Member Guests to any of our programs Free of Charge!

"Greening Your Bottom Line"... Part II - Making the Sustainable Building Process Work for You

Part II of a Two-Part Series on Energy Management, High Performance Design and Green Building Strategies

So you've decided to go green...

What's next? What do all of the project stakeholders mean when they say green design? How will the design and construction process differ from the traditional process? Are there any hidden costs associated with going green? What impact will codes and legislation have on the design?

This informative and interactive forum will answer these questions and provide valuable insight into the sustainable building process. Hear from architects, engineers, contractors and owners as they share their experiences about what it really means to go green.

This program is intended for owners, architects, engineers, contractors and suppliers interested in understanding the sustainable design and construction process.

Topics to be discussed include:

- **Understanding what sustainability means to the owner, the design team, the contractor and the end user**
- **Key factors that define how the sustainable design and construction process differ from the traditional process**
- **An overview of current and pending legislation that will impact sustainable design and construction process**
- **"Hidden" costs – real project costs that are often overlooked when considering green design.**
- **Best Practices & Case Studies highlighting the "top dos & don'ts" of the sustainable design & construction process**

Sustainability Series Sponsor:

- **Johnson Controls**
- **Siemens**

Program Sponsors

- **AKF Engineers**
- **Amenta/Emma Architects, P.C.**
- **Bartlett, Brainard Eacott, Inc.**
- **CT Light & Power/CT Energy Efficiency Fund**
- **Conservation Solutions Corporation**
- **Consulting Engineering Services, Inc.**
- **Honeywell**
- **JCJ ARCHITECTURE**
- **Petra Construction**
- **Skanska**
- **Turner Construction Company**
- **URS Corporation AES**

Refreshment Sponsors:

- **FlowTech Inc**
- **VanZelm Engineers**

Directions to the Hangar at Pratt & Whitney.....

- Traveling I-84 Eastbound : Take Exit 58 (Roberts Street), Bear right at end of ramp, continue straight through traffic light.
- Traveling I-84 Westbound : Take Exit 58 (Roberts Street), Turn left at traffic light, cross over I-84, proceed straight through traffic lights.
- Traveling Route 2 Eastbound : Take Exit 5 (Willow Street), Proceed under Route 2, continue straight on Willow Street or turn right at traffic light for Main Street Entrances.
- Traveling Route 2 Westbound : Take Exit 5A (Main Street) , Proceed North, the Main Street entrances and Willow Street will be on the right.
- Follow either Airport Avenue or Willow Street toward Hangar.
- Parking is around back of building. Enter through glass doors.

Today's Program:

Program Overview and Focus

Delbert Smith Jr., P.E. Principal
CIPE, LEED® A.P. Consulting Engineering Services, Inc.

Legislative Review and Update

Matthew Hallisey Director, Government Relations & Legislative Counsel
Connecticut Construction Industries Association

Today's Forum Participants

Owners

Nancy Win-Alderson Associate Director, Global Operations
Pfizer, Inc.

Nathan Gauthier New Construction Program Manager
Harvard University, Green Campus Initiative

Design Team

Erin Cooper, AIA Architect
LEED® A.P. Amenta/Emma Architects, P.C.

Greg Bergmiller, AIA Architect
The S/L/A/M Collaborative

Paul Popinchalk, P.E. Technical Associate
LEED® A.P. vanZelm Engineers

Julie Paquette Engineer
LEED® A.P. Vanderweil Engineers

Construction Managers

Greg Schaffer Project Manager
The Whiting-Turner Contracting Company

Norm Lamonde Sustainability Manager
Turner Construction Company
